# ELECTRIC/GAS DRYERS

## Intelligent Electronic Controls with Dual LED Display and Dial-A-Cycle™

Intuitive controls allow you to 'set it and go'. You can also save your favorite dry cycle by pressing Custom Program. You'll have optimized drying performance with the push of a button.

## Dual Humidity Sensors

The dryer's dual humidity sensors detect moisture in the load and adjust the drying time accordingly. This keeps you from under or overdrying your clothes, and ensures optimal drying performance.

## Remote Monitor Ready

LG's Remote Monitoring System makes it easier to keep tabs on your laundry. Simply plug the modem into any outlet in your home and it communicates with the machine to display the time remaining in the cycle. Whether you're putting away groceries or relaxing with a good book, you'll know how much time is left. Your repeated trips to the laundry room are over.
